Are you currently taking Fosamax or Actonel (alendronate or risedronate) for your Osteoporosis and curious if it is time for a “Drug Holiday”?

If so you may be eligible to participate in a “Drug Holiday” clinical research study to monitor patients who have been treated for 5 years with Fosamax or Actonel for Osteoporosis.

Qualified participants will receive

- Study related visit’s, DXA’s, & Laboratory work
- Compensation may be available for you time and travel

Please contact XXXXXXXXXXXXXXX at xxx-xxx-xxxx to see if you may qualify.
