

Cold Therapy Unit

Dr. Chrastil highly recommends a cold therapy unit.

- An optional alternate icing method to reduce pain and swelling post-surgery or post-injury.
- You can use plastic frozen bottles inside the unit rather than constantly making or buying ice.
- More convenient than ice or gel packs.
- Uses a power cord for motorized icing.
- Not billable to insurance, self pay only. HSA eligible.

Breg Polar Care Cube Motorized Cold Therapy \$175 + tax

- Available in Golden, Highlands Ranch, Westminster.
- Universal/multi-use pad included.
